

ONLINE PAYMENTS & INVOICING

SECURELY RECEIVE PAYMENTS AND SEND INVOICES ONLINE

Online Payments and Invoicing is a paperless, streamlined tool that allows your business to receive payments and send invoices and reminders to your customers in a secure web-based environment. It's easy for your customers to set-up one-time and recurring payments, enhancing your cash flow.

Faster Access to Funds and Reduced Costs

Accept payments 24/7. Funds are available as soon as the next business day. Reduce costs associated with paper-based billing.

Advanced Security Protection

Protect customer information and credit card numbers with continuous security screening and technology upgrades.

Accept Major Forms of Payment

eCheck, Mastercard®, Visa®, Discover® and debit cards.

Paperless Invoicing

Save time and send invoices electronically to any email address.

Real-Time Reporting

Access real-time information for all payments, including reports to view aged receivables and prepare taxes.

Auto-Invoicing

Automate the issuance of recurring invoices and payment requests.

Simplified Collections

Automatically send reminders before an incoming payment is due.

Automated Receivables Tracking

View received and pending payments in real-time.
