

# REMOTE DEPOSIT CAPTURE

## SAVE TIME BY DEPOSITING CHECKS FROM ANY WORK LOCATION

Remote Deposit Capture enables businesses to make deposits using a scanning device and without a trip to the bank. Checks are electronically transmitted to Ocean Bank for processing. Eliminating the manual process reduces errors and improves efficiency. To use Remote Deposit Capture you must be enrolled in Online Banking.

### Faster Access to Funds

The electronic transmission of checks accelerates payment processing.

### Account Flexibility

Deposit funds into one or multiple accounts.

### Cut-off Time

Receive same day credit for deposits scanned before 5:00 pm on business days.

### Online Managerial Reporting

Access real-time views of checks deposited, deposit history and generate reports to manage cash flow.

### Deposit From Any Location

Equip multiple locations, work facilities and home offices with scanning devices.

## PRODUCT DETAILS

### Single and Batch Deposit Functionality

Deposit one or up to 60 checks at a time with one touch.

### Convenient Collection Pocket

Store up to 60 documents in scanning order.

### Easy Set Up

Equipment is easy to install, designed to be compact and efficient.

### Automated Check Endorsement

Virtual image technology endorses checks as they are scanned. A Franker cartridge creates a red ink stamp that defaces the front of each check with a message that reads, "Electronically Presented".
